BOSTON SCIENTIFIC CORPORATION

Posted: 8/28/2020

Boston Scientific is primarily known for the development of the Taxus Stent, a drug-eluting stent which is used to open clogged arteries. Boston Scientific, is a manufacturer of medical devices used in interventional medical specialties. Boston Scientific is present in 120 countries with over 13,000 products and helped over 30 Million patients every year. Boston Scientific is a fortune 500 company from last 16 years.

BUSINESS NEEDS

Boston Scientific Corporation was using primitive email approval system for approving proposal. In case approvers are unavailable, delegates were needed to manage the approval. This process used to cause the delay and it was not a structured refined process. The customer wanted a quick and predefined process application for approval along with comments history management.

SOLUTION

Golden Five Consulting's SharePoint, PowerApps, and PowerAutomate MVP experts created a new generation PowerApps application with integrated systems to track and manage content easily in predefined approval management system. Golden Five developed the required logic to map this requirement through PowerApps with SharePoint as backend.

- We created appropriate SharePoint sites in Office 365
- We created PowerApps which will have the process defined for approval and management of content by end users.
- We created Microsoft PowerAutomate automation

BENEFITS

1. Client is now reaping the benefit of an integrated view of demand fulfillment and capacity management.
2. Better content inventory accuracy management
3. Clear product traceability of content
4. Operational efficiency increased by 60%
5. Increase in employee productivity by 35%
6. The designed system is now capable of reducing the time taken to plan cycle and responds more quickly to changes in demand

RESULT: SECURE, QUICK, AUTOMATED, CLOUD BASED PROCESS APPROVAL SOLUTION
